# INCLINED PARAPET GUARDRAIL SYSTEM

TECHNICAL SPECIFICATION

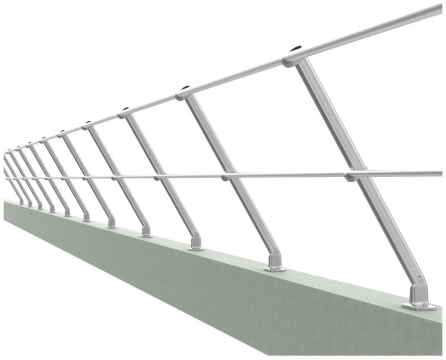
828 CABLE SYSTEM INC.

**828INDUSTRIES.COM**

828 Cable System · Guardrail, Fencing & Hardware

**Parapet-mounted aluminium guardrail with inclined posts, a lower-profile look with no penetration of the roof membrane.**

The inclined version of the parapet guardrail. The posts lean outwards, which softens the look from the street and keeps the walkway clear, while fixings stay on the parapet and away from the roof membrane.



## WHERE IT FITS

- Visible roof edges where appearance matters
- Permanent protection on existing parapets

## SUPPLIED AND INSTALLED BY 828

828 surveys the roof edge, confirms the right system and post layout, and supplies and installs the guardrail with handover documents. Systems are made to suit your parapet, roof finish and run length.

## SPECIFICATIONS

| | |
|---|---|
