NOTES

- The functionality is ensured only by using circular wire strand ropes of the 10820 and 10830 series.
- The design resistance FRd (kN) according to ETA refers to use with circular wire strand ropes of construction 6×19+WC (product group 10830). When using the 6×7+WC rope construction (product group 10820), the resistance value increases.
- The user is responsible for independently verifying the correct installation and ensuring the appropriate rope diameter. Please refer to the instructions in the installation manual.
- Compatible battery-powered swaging tools: 30570-2003 and 30570-2011.
- Annealed component. This may result in surface discoloration. Corrosion class 2.
