NOTES

- The frames are manufactured according to individual dimensions and geometries.
- The rope diameter and mesh size of the net are freely selectable.
- The frame is covered with Webnet by integrating (wrapping) it around the round tube frame.
- The specification of the frame and net, as well as the frame size, is done according to individual requirements. The technical requirements are to be defined by the responsible engineers.
- Maximum logistical frame size: 2000 x 3500 mm.
- Please refer to additional information in the catalog 'Frames F2technical' and the datasheet 'Load bearing capacity' in the download area.
