

WIRE ROPE CLIP STAINLESS STEEL

30800

TECHNICAL SPECIFICATION

Rope clamps by Jakob Rope Systems, stainless steel AISI 316 (1.4401).
9 sizes, article no. 30800-0200 to 30800-1600.

SPECIFICATIONS

Brand	Jakob Rope Systems
Product no.	30800
Category	Architectural Cables & Fittings
Material	Stainless steel 316
Surface	polished
Nominal strength	A4

ARTICLE NUMBERS

NO.	Ø	A	B1	B2	B3	B4	K	KG

30800-1600	16	M14	79	35	60	18	47	0.4100

NOTES

- The number of required clamps depends on the rope diameter.
- The distance X between the clips should be at least 1.5 times but no greater than 3 times dimension k.
- The user is responsible for checking the correct installation and the proper rope diameter. Please refer to the instructions in the installation manual.
- Clips should be retightened after load has been applied to the rope as this will slightly decrease the rope diameter.
- Loop connections with clips usually attain about 80 % of the minimal rope breaking strength.
